EDUCATION

Vivekananda Institute of Professional Studies (VIPS-TC), Delhi | Nov 2022 - Jul 2026

B.Tech, Computer Science and Engineering | CGPA: 8.77/10

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, C++, Python

Frontend: React, Redux Toolkit, HTML, CSS, Tailwind CSS

Backend and Databases: Node.js, Express, REST APIs, MongoDB, MySQL, Redis

Tools and Deployment: Git, GitHub, Docker, AWS EC2, Nginx, PM2, Vercel, Postman

EXPERIENCE

goSharpener | Software Engineer | Aug 2026 - Present

- Automated Excel-based student mapping to classify records as matched, review needed, or unmatched.
- Built file conversion and tab synchronization workflows; contributed to rollback functionality and code reviews.

AccioJob | Web Development Intern (college-sponsored) | Jun 2024 - Sep 2024

- Built a responsive restaurant web app with search, filtering, sorting, a cart, and dynamic routing.

PROJECTS

Expense Tracker | React, TypeScript, Node.js, Express, MongoDB, Redis, Docker

track-expense.com | Frontend GitHub | Backend GitHub

- Built expense tracking with recurring payment analytics, spending trends, heatmaps, and Excel export by date range.
- Implemented JWT authentication with HTTP-only cookies and cursor-paginated expense APIs in TypeScript and Express.
- Added offline expense queuing with IndexedDB and sync on reconnect; containerized the frontend, API, and MongoDB with Docker Compose.

DevTinder | React, Node.js, Express, MongoDB, AWS EC2 | Oct 2025 - Nov 2025

Frontend GitHub | Backend GitHub

- Built a developer matching app with feeds, profiles, connection requests, and mutual connections, secured with JWT.
- Deployed the Node.js service on AWS EC2 behind an Nginx reverse proxy with PM2 process management.

Freelance Client Website | React, Vercel

advocatenaveengarg.com

- Built and deployed a responsive React frontend for a client using Vercel and a custom domain.
